Revitalize the Asset.

Invest in the Future.

Funds are being actively raised
through a parent-led capital
campaign on behalf of NCPS with
financial contribution from the
Town of New Canaan.

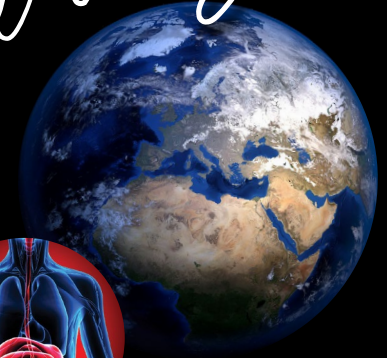

**THANK YOU FOR
HELPING US BRING
THE DOME
TO NEW CANAAN**

THE DOME

Be a Star!

**An Interactive Learning Theater
for students and the community**

HELP US BUILD

THE DOME AT NEW CANAAN HIGH SCHOOL

Have you heard about the new state-of-the-art learning theater planned for New Canaan in 2023?

With your help, we can completely transform the original 1971 New Canaan High School planetarium. This new space will offer our entire community unparalleled educational opportunities.

LAUNCHING US INTO THE 21ST CENTURY

The Dome will provide interactive and immersive opportunities for students and community members alike using state-of-art-technology.

- Digistar 7 full dome platform
- Dual 4K image projectors
- 30-foot NanoSeam dome design
- Reclining seats for optimal viewing
- LED cove lighting
- Advanced surround sound
- Gaming style controls for ease of exploration

AWE-INSPIRING EXPERIENCES FOR THE ENTIRE COMMUNITY

Imagine students and community members engaged in...

- collective virtual reality and discovery
- summer camps and field trips for students preschool-8th grades
- STEM and science clubs
- community stargazing events
- live music and theater performances
- movie screenings
- events via satellites around the world... and so much more!

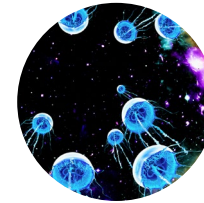

“The Dome will create a new innovative learning environment for all students K-12 to engage in learning, spark curiosity, and be inspired to create and problem solve.”

– Dr. Jill Correnty
Deputy Superintendent Curriculum and Instruction

WHERE WILL THE DOME TAKE US?

EXPERIENTIAL LEARNING ACROSS DISCIPLINES

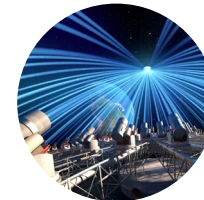

SCIENCE

Explore space, the layers of the earth, varied climates, human anatomy, the depths of the ocean, volcanoes and more

ARTS

3D art display, live chamber music, small group performances, recording sessions and streaming live performances

INNOVATION

Cutting-edge technology, student developed content, collaborative problem solving, leading New Canaan forward

AND MORE

Travel through world history, geography, access remote satellites around the world and real time celestial events

“The collective immersive experience empowers students to become creative problem solvers and content creators.”

– Melinda Meyer, Director of Innovation
